Commercial Advertiser.

REPORT Of the Minister of the Interior to the Legislature of 1858.

> INTERIOR DEPARTMENT, ? March 20th, 1858. 5

NOBLES AND REPRESENTATIVES : It is my duty under the Constitution, to report to you, when in Legislative Session assembled, the transactions of the department which it has pleased His Majesty to confide to my care. Accordingly, I have now the honor to lay before you the Biennial Report for the years 1856 and 1857.

The transactions of this department I will arrange inder the following heads, viz: RECEIPIS AND EXPENDITURES.

The receipts during the two years ending Dec. 31st, 857, amount (as per table A.) to \$128,674 87 .-The expenditures during the same period amount, (as per table B.) to \$134,722 47 .- If the receipts of the wo past years show a decrease, when compared with that of 1855, the expenditures also show a decrease. when compared with the same year; the average dewhen compared with the same year, the average de-trease in receipts for 1856 and 1857, being \$6,542 27 year, and the average decrease in expenditure being \$2,290 92 a year. You will perceive the cause of this decrease in the receipts accounted for in the receipts of "Sales of Real Estate," and those of "Retail Spirit Licenses."

GOVERNMENT PRESS. The report of the Director of the Government Press is hereto appended, marked C, from which it will be seen that the receipts for work done during the years 1856 and '57, amount to \$14,622 86, and the expenditure during the same term to \$18,531 33, without including the amount paid for a new Adams'

Three years ago the Government had under consideration that perhaps it would be advisable to dispose of the Government Press, and have the Government printing done by private contract. Such a measure, ke most others, has its advantages and disadvantages, which it will be your duty to weigh seriously and fully, in their various bearings. In an economical point of view it may be urged in favor of the measure, that the lease of the premises and printing office, apparatus, etc., would go far, if not altogether. to pay for the work done by the Government Press for the Government, and that the Government would be the gainer by the competition for its work, which would arise between parties in charge of private offices. It may also be said that the Government has adopted the principle, and strictly adhered to it, whenever circumstances would permit, to advertise all its work and have it done by private contract; and that its maintaining a public printing office in sition to private enterprise of the like kind, is a deviation from the above principle, which only the most argent necessity or circumstances beyond its control could justify. I admit the truth of the last proposition and fully believe that "to assert your own rights so as to be compatible with the rights of others," is as salutary a rule for Government as for individuals; and I grant that there is much force in the first proposition, though my mind is not clear as to the alleged saving which would accrue to the Government, for I am led to believe, that by owning a printing office, itself, it has been able to get work done for less money than it possibly could have had

work now annually done for it, either as charged directly to it, or for which no charge is made : such as official publications, etc., in the Polynesian newspaper, etc.—then clearly the time has not yet arrived when the Government could dispose of its printing office and be a gainer by the operation.

The moral and political influence which a governnent possesses, owning a printing office and political ournal of its own, should not be lost sight of : and inder certain conditions of a nation's existence, the any pecuniary cost influence may become paramount any pecuniary cost in the district passage of the Governent Journal, that is to say the journal the material which is owned by the Government, has been consselly free to express his own opinions irrespective

under any contract with private parties. If this is

o-if it should be shown that no private party can

afford to pay a lease to the Government for the prem-

ises and printing office equivalent to the value of the

of those entertained by the administration; that is to say the executive and the paper have not been in rapport more than came from an accidental concurrence of views. Therefore, whatever political necessity may formerly have existed for the Government having the control of one of the journals published in the country, I cannot pay a higher compliment to the improved condition of public sentiment of that portion of the community among whom the journals published in the English language chiefly circulate, or to the greater liberality of H. M. Government, than by expressing my firm belief that, were the Government Press disposed of, were there two or twenty independent presses in the country in its stead-the Government still would never want the more grateful, because voluntary, assistance of the major part of the editorio corps to explain its measures, vindicate its principles and rebuke faction and captiousness.

As the whole question hinges then, apparently, upon a pecuniary point, I would recommend that the appropriation be continued and the Minister of the Interior expowered, in his discretion, to dispose of the Government Press," its fixtures, apparatus or both, by sale or lease, whenever it can be done upon reasonable conditions and with a saving to H. M. Treas-

NATURALIZATION.

During the years 1856 and '57, 220 aliens have come naturalized subjects of His Majesty, who were atives of the following countries :

Western Islands, -East Indies, Chill, Norway and Portugal, 2 each, -

From the year 1844, when the regular system of naturalization was adopted, 1,663 foreigners have taken the oath of allegiance to this Government; and 21 foreigners have received letters of denization. How many of these are now remaining alive in the country, I have not the means of knowing, until another census shall have been taken.

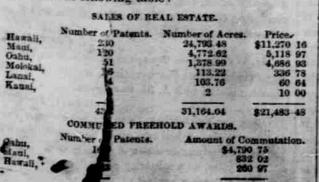

From the Report of the Post Master, which I append, marked D, you will perceive that although the number of foreign letters which have passed through the Post Office, during the past two years, is smaller than those passed in the year 1855, still the amount of postage collected during the two years, exceeds the amount collected in 1855. This is accounted for the sea postage having been collected in addition to the Hawaiian postage, and also by the increase in the number of pamphlets and newspapers

I beg to call your attention to the Postmaster's suggestion that a small rate of postage be imposed on inter-island letters, and that he be authorized by the law to issue inter-island postage stamps, to carry the plan into effect. Although it is now a fixed principle of every civilized community to reduce its postage to the lowest possible figure, in order to facilitate the inter communication of thought and the transactions of business, yet I know of no country but our own where postage of some kind is not levied to assist at least in defraying the expenses of that de-

In the New Code a clause has been introduced pre-scribing a definite time and mode of disposing of dead letters, which I hope you will approve of.

LAND OFFICE. During the years 1856 and '57, 31,164.07 acres of land have been sold, which realized \$21,483 48, as shown in the following table:

\$11,270 16

Commercial

COMMERCIAL PRINTING OFFICE. PLAIN AND FANCY

PUBLISHED WEEKLY BY HENRY M. WHITNEY.

The number of Patents issued from the office during the past two years is 1,718, viz.: On sale of Real Estate, . Freehold awards, Allodial awards and leases, Certified copies,

The following table will show the quantity of Government land sold from the 3d day of September, 1846, to the 31st of December, 1857 :

182,013.51

You will perceive, on referring to the above table, that the quantity of land sold during the past years is not so large as that sold previously; and I would add that nearly all the Patents for real estate granted in 1856 and '57 were for lands sold by the Land Agents in 1854 and '55, but for which they did not receive payment until the time the patents were issued. In July, 1856, in consequence of the decrease of the value of Real Estate and the low prices obtained for some pieces of land offered at auction, I notified all the government Land Agents that they were to sell no more land until further notice. The law regulating the sale of lands passed by the Legislature in 1851 was, no doubt, framed to encourage capitalists to purchase land and improve the same, as well as to benefit such natives who had no land commission awards, or such who required more land than what had been awarded them; but it has been ascertained that a considerable portion of the govern-ment lands sold, instead of being cultivated or improved by the original purchasers, has been held by them for speculation. I therefore consider that it will be more advantageous to the government to lease its lands at a low rate than to sell them at the ruinous prices that have been lately obtained, for, by so doing, the government will receive certain yearly revenue from the lands, while capitalists will be able

I would not, however, recommend that a law should be passed forbidding the sale of government lands, because occasions may occur, and I hope they will not be so " few and far between" as in the past, when it will be advisable to encourage practical men and bona fide settlers by selling them the lands applied for in fee simple. If such lands lie fallow, I hold it better that, instead of lying fallow as private property they should do so as government property; as in that case they will always be available to the actual settler who is willing to benefit the country as well as

himself by their improvement. I would recommend that so much of the law relating to the Fort lands passed by the Legislature in 1851 that prescribes that such lands be sold by the Minister of the Interior at auction, be repealed, and that the Fort lands be placed at the disposal of the

quence of their lands not having been surveyed, they konohikis who neglected to lake out land. Mahele, awards for their lands described in the Buke Mahele, Ship Chandler, Dealer in General Merchandise, and Commission Merchant, Honolulu, Oahu, S. I., keeps constantly on hand lands on paying all costs of commutation, patents, &c., provided they had always held possession of the lands they claimed; as, although under the law, their rights were forfeited, it would not have been just for

the government to have taken advantage of their

Much of the second clerk's time has been taken up in completing the index to the land commission awards, and in making out a list of non-awarded claims, which now can be found on the page opposite tricts and lands in which they are situated, a labor which has hitherto called for a large share of the clerk's time. It will probably occupy about six months to complete the references to the land commission books, when the work of the clerk will be merely the delivery of awards and making out copies of lost awards and surveys. There are debts remaining unpaid amounting to \$524 35, not more than the | H. VON HOLT. half of which will be probably received.

delivered, is 604, viz:

means of support.

never received any awards for the same in consepaying all expenses for surveys, commutation and fees of patenting. No action was, however, taken by the Legislature on the subject, and, in the absence of any direct law, the following principles were laid down by me, viz : that, with the consent of the King in Privy Council, those whose claims were not objected to by the konohikis, or any other parties, and those konohikis who neglected to take out land commission

ignorance and remissness.

During the years 1856 and '57, \$1,920 24 have been received by the second cierk of this office from the following sources:

\$1,920 24

The number of Royal Patents ready for delivery is ganst KRULL. 819, and the amount due on which is \$11,942 89, as shown in the following table: Land sales and commutation, \$3,961 50 Allodial L. C. awards, 1,140 00 Land sales and commutation, 3,686 35 Allodial L. C. awards, 508 00 Land sales and commutation, 1,609 04

I have endeavored, during the two past years, to carry out the instructions contained in the law passed by the Legislature of 1856, authorizing the purchase or construction of an inter-island steamer, but I regret to inform you without success. I trust, hovever, shortly to be apprised that definite arrange-

recent monetary crisis in the United States, he has On the receipt of Mr. Pierce's letter, informing the Government that he was unable to fulfil his engagement, Robert C. Janion, Esq., H. M.'s Consul at Liverpool, was requested on the 18th of January to places, particular and detailed estimates of the cost anchors, cables, sails, spars, &c .- a proper supply of

Minister of the Interior on the same terms as other government lands. My reason for this is, that I find a considerable portion of the said lands is now under cultivation by poor people who are willing to pay a gest. c. MELCHER fair yearly rent for the same, but who have no means of purchasing their lots if offered at auction, and in Comthis event would probably be turned off without any In my report to the Legislature of 1856, I suggested that a law should be passed authorizing me to grant Patents to those parties who had given evidence before the Land Commission, and whose claims had never been disputed; also to those parties who owned lands described in the Buke Mahele, but who had

For land commission awards, including old debts, \$1,760 74 " certified copies and searches. \$159 50 certified copies and searches. to those awarded on referring to the names of the dis- Ship Chandlers, Importers and Commission Merchants, On

Under the authority of that law, Henry A. Pierce, Dealer in Dry and Fancy Goods, Hotel street between Numan and Maunakea streets, Honolulu, S. I. 11 tf Fsq., of Boston, had engaged to have an iron propeller, adapted to our inter-island navigation, constructed in Boston; he and his friends taking one half of the vessel, and the Government and private lumber Merchant, yard corner of Queen and Nuuanu str

*Owing to the length of the table we give merely the total sales and receipts for twelve years.
